

# **SAFETY DATA SHEET**

## Section 1. Identification of the material and the supplier

Product: **DEGAROUTE® 485** 

Product Use: Binder for road marking Roller application or brushing

Hand-mixing with intimate contact and only PPE available Wide dispersive indoor use resulting in inclusion into or onto a matrix Wide dispersive outdoor use resulting in

inclusion into or onto a matrix

Restriction of Use in NZ: Refer to Section 15

Company Name: **Degafloor NZ**Address: 6 Sheffield Street
Levin, 5510

Telephone: +64 6 367 9799
E-mail: orders@degafloor.nz

Emergency No: 0800 764 766 (National Poison Centre)

Date of SDS Preparation: 15 September 2020

### Section 2. Hazards Identification

This substance is hazardous according to the EPA Hazardous Substances (Classification) Notice 2017

### EPA Approval No: Surface Coatings and Colourants (Flammable) - HSR002662

### **Pictograms**

Flammable Irritant Ecotoxic

Signal Word: **DANGER** 

HSNO Classification	Hazard Code	Hazard Statement	GHS Category
3.1B	H225	Highly flammable liquid and vapour.	Flam. Liq. 2
6.1E (oral)	H303	May be harmful if swallowed.	Acute Tox. 5
6.1E (Resp)	H335	May cause respiratory irritation.	STOT SE 3
6.3A	H315	Causes skin irritation.	Skin Irrit. 2
6.4A	H319	Causes serious eye irritation.	Eye Irrit. 2A
6.5B	H317	May cause an allergic skin reaction.	Skin Sens. 1
9.1B	H411	Toxic to aquatic life with long lasting effects.	Aquatic Chronic 2

<b>Prevention Code</b>	Prevention Statement
P102	Keep out of reach of children.
P103	Read label before use.
P210	Keep away from heat, sparks, open flames or hot surfaces. No smoking.

Product Name: Degaroute 485 SDS Prepared by: Technical Compliance Consultants (NZ) Ltd Date of SDS: 15 September 2020 Tel: 64 9 475 5240 www.techcomp.co.nz

Page 1

P233	Keep container tightly closed.
P240	Ground/bond container and receiving equipment.
P241	Use explosion-proof electrical/ventilating/lighting.
P242	Use only non-sparking tools.
P243	Take precautionary measures against static discharge.
P261	Avoid breathing fumes, vapours or spray.
P264	Wash hands thoroughly after handling.
P271	Use only outdoors or in a well-ventilated area.
P272	Contaminated work clothing should not be allowed out of the workplace.
P273	Avoid release to the environment.
P280	Wear protective clothing as detailed in Section 8.

Response Code	Response Statement
P101	If medical advice is needed, have product container or label at hand.
P312	Call a POISON CENTER or doctor/physician if you feel unwell.
P362	Take off contaminated clothing and wash before re-use.
P391	Collect spillage.
P303 +	IF ON SKIN (or hair): Remove/Take off immediately all contaminated
P361+P353	clothing. Rinse skin with water/shower.
P304 + P340	IF INHALED: Remove to fresh air and keep at rest in a position comfortable
	for breathing.
P305 +	IF IN EYES: Rinse cautiously with water for several minutes. Remove
P351+P338	contact lenses, if present and easy to do. Continue rinsing.
P333 + P313	If skin irritation or rash occurs: Get medical advice/attention.
P337 + P313	If eye irritation persists: Get medical advice/attention.
P370 + P378	In case of fire: Use foam, dry chemical and carbon dioxide for extinction.

<b>Storage Code</b>	Storage Statement
P405	Store locked up.
P403 + P233	Store in a well-ventilated place. Keep container tightly closed.
P403 + P235	Store in a well-ventilated place. Keep cool.

Disposal Code	Disposal Statement
P501	Dispose of according to Local Regulations or Authorities

# Section 3. Composition / Information on Hazardous Ingredients

Ingredients	Wt%	CAS NUMBER.
Methyl methacrylate	>=20 - <30%	80-62-6
n-butyl acrylate	>=20 - <30%	141-32-2
2-ethylhexyl acrylate	>=1.0 - <10%	103-11-7
Tributyl-O-acetylcitrate	>=1.0 - <10%	77-90-7
N,N-bis-(2-hydroxypropyl)-p- toluidine	>=0.1 - <1.0%	38668-48-3
Triisodecylphosphite	>=0.1 - <1.0%	25448-25-3

# Section 4. First Aid Measures

## Routes of Exposure:

If in Eyes Rinse cautiously with water for 15 minutes. Rinse cautiously with water

for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing. If eye irritation persists: Get medical advice.

If on Skin Take off contaminated clothing and wash before re-use. Wash skin with

plenty of soap and water. If skin irritation or rash occurs: get medical

advice/attention.

Product Name: Degaroute 485 SDS Prepared by: Technical Compliance Consultants (NZ) Ltd

If Swallowed Do not induce vomiting. Wash out mouth thoroughly with water. Never

give anything to the mouth of an unconscious person. Seek medical

attention if needed.

If Inhaled Remove person to fresh air. Remove contaminated clothing and loosen

remaining clothing. Allow person to assume most comfortable position and keep warm. Keep at rest until fully recovered. Apply artificial respiration if not breathing. Get medical advice if breathing becomes

difficult.

Most important symptoms and effects, both acute and delayed

Symptoms:

**Ingestion:** May be harmful if swallowed. **Inhalation:** May cause respiratory irritation.

**Skin:** Causes skin irritation and may cause an allergic skin reaction.

**Eye:** Causes serious eye irritation.

**Treatment:** No specific antidote known. Symptomatic treatment.

### **Section 5.** Fire Fighting Measures

Hazard Type	Flammable Liquid
Hazards from	May be released in case of fire: carbon monoxide, carbon dioxide,
products	organic products of decomposition. Closed container may rupture if strongly heated. Vapours may form explosive mixtures with air.  Combustible air-vapour mixtures are heavier than the air and spread
Suitable	along the floor. Ignition from a considerable distance is possible.
Juliubio	Foam, dry chemical and carbon dioxide
Extinguishing media	Unsuitable: High volume water jet
Precautions for firefighters and special protective clothing	Wear self-contained breathing apparatus. Keep away from sources of ignition - No smoking. Vapors are heavier than air. Vapors can travel to a source of ignition and flash back. Explosive mixtures may occur at temperatures at or above the flashpoint.  Take action to prevent static discharges. In the event of fire, cool the endangered containers with water. Firefighting must be carried out from a safe distance. Use explosion-proof equipment. Prevent fire extinguishing water from contaminating surface water or the ground water system. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
General Fire Hazards	Keep emptied containers away from sources of heat and ignition. Keep out unprotected persons. In case of fire, remove the endangered barrels and bring to a safe place, if this can be done safely. Containers exposed to heat (fire) may build up pressure. Cool by splashing with water. Prevent fire extinguishing water from contaminating surface water or the ground water system. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
HAZCHEM CODE	3YE

### Section 6. Accidental Release Measures

### Personal precautions:

Use protective clothing as detailed in Section 8. Assure sufficient ventilation. Use personal protective clothing. Use breathing apparatus if exposed to vapours/dust/mist/aerosol. Keep away from open flames, hot surfaces and sources of ignition. Vapours can form explosive mixtures with air. Keep out unprotected persons. Avoid spark generation.

### **Environmental precautions:**

Product Name: Degaroute 485 SDS Prepared by: Technical Compliance Consultants (NZ) Ltd

Do not discharge into drains/surface waters/groundwater. Do not discharge into the subsoil/soil. Notify authorities if product enters sewers or public waters.

### Spill and Disposal procedures:

Larger quantities: Remove mechanically (by pumping). Use explosion-proof equipment! Smaller quantities and/or residues: Contain with absorbent material (e.g., sand, diatomaceous earth, acid absorbent, universal absorbent or sawdust).

Dispose of in accordance with local regulations detailed in Section 13.

#### Section 7. **Handling and Storage**

### **Precautions for Handling:**

- Read label before use.
- Keep away from heat, sparks, open flames or hot surfaces. No smoking.
- Keep container tightly closed.
- Ground/bond container and receiving equipment.
- Use explosion-proof electrical/ventilating/lighting.
- Use only non-sparking tools.
- Take precautionary measures against static discharge.
- Open drum carefully as content may be under pressure.
- Avoid breathing fumes, vapours or spray.
- Provide sufficient ventilation and exhaust at the workplace.
- Provide a good standard of general or controlled ventilation (5 to 10 air changes per hour).
- Avoid contact with skin and eyes.
- Supervision in place to check that the risk management measures in place are being used correctly and operation conditions followed.
- Training for staff on good practice. Recording of any 'near miss' situations.
- Regular cleaning of equipment and work area.
- Persons susceptible to skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.
- Control staff entry to working area.
- Wash hands thoroughly after handling.
- Safety shower and eye wash fountain should be available.
- Use only outdoors or in a well-ventilated area.
- Contaminated work clothing should not be allowed out of the workplace.
- Avoid release to the environment.
- Wear protective clothing as detailed in Section 8.

### **Precautions for Storage:**

- Store away from incompatible materials listed in Section 10.
- Keep out of reach of children.
- Store locked up.
- Store in a well-ventilated place and keep cool.
- Keep container tightly closed.
- Keep away from open flames, hot surfaces and sources of ignition.
- Keep away from heat.
- Protect from the action of light or direct sunlight.
- Keep containers tightly closed.
- Fill the container by approximately 90 % only as oxygen (air) is required for stabilisation.
- With large storage containers make sure the oxygen (air) supply is sufficient to ensure stability.
- Keep only in the original container at a temperature not exceeding 30 °C.

### Section 8 **Exposure Controls / Personal Protection**

### WORKPLACE EXPOSURE STANDARDS (provided for guidance only)

Product Name: Degaroute 485 SDS Prepared by: Technical Compliance Consultants (NZ) Ltd Date of SDS: 15 September 2020

Tel: 64 9 475 5240 www.techcomp.co.nz

Substance	TWA ppm	mg/m³	STEL ppm	mg/m³
Methyl methacrylate (skin) [80-62-6]	50	208	100	416
n-Butyl acrylate (2019) [141-32-2]	2	11	4	22

Workplace Exposure Standard – Time Weighted Average (WES-TWA). The time-weighted average exposure standard designed to protect the worker from the effects of long-term exposure. Workplace Exposure Standard – Short-Term Exposure Limit (WESSTEL). The 15-minute average exposure standard. Applies to any 15- Minute period in the working day and is designed to protect the worker against adverse effects of irritation, chronic or irreversible tissue change, or narcosis that may increase the likelihood of accidents. The WES-STEL is not an alternative to the WES-TWA; both the short-term and time-weighted average exposures apply. Workplace Exposure Standards and Biological Exposure Indices NOV 2019 11<sup>TH</sup> EDITION.

### **Engineering Controls**

Provide sufficient ventilation and exhaust at the workplace.

## **Personal Protection Equipment**

Eyes	Tightly fitting safety goggles		
Hands	Material: butyl rubber gloves		
	Break-through time: 66 min		
	Guideline: EN 374		
	Additional Information: Gloves should be replaced regularly, especially after extended contact with the product. For each work-place a suitable glove		
	type has to be selected.		
Skin	For handling larger quantities: Wear chemical-resistant boots and an apron.		
Respiratory	Breathing apparatus in case of high concentrations if the limit values like TLV are exceeded, when vapours or aerosols occur Respirator with filter for organic vapour.		
General	Take off all contaminated clothing immediately. Store work clothing		
	separately. Follow the usual good standards of occupational hygiene. Clean		
	skin thoroughly after work; apply skin cream.		

Section 9	Physical and Chemical Properties

Appearance	Liquid
Colour	Colourless, turbid
Odour	ester-like
Odour Threshold	Not available
pH	Not available
<b>Boiling Point</b>	100 °C (1.013 hPa) (methyl methacrylate)
Melting Point	Not available
Freezing Point	Not available
Flash Point	10 °C (methyl methacrylate)
Flammability	Not available
Upper and Lower	9.9 %(V) (methyl methacrylate)
Explosive Limits	2,1 %(V) (methyl methacrylate)
	1. 3 %(V) (n-butyl acrylate)
Vapour Pressure	approx. 40 hPa (20 °C)
Vapour Density (air=1)	>120°C
Density	0.98 g/cm³ (20 °C)
Solubility	Water = approx. 20 g/l (20 °C)
	soluble in ethyl acetate
Partition Coefficient:	Not available
Auto-ignition	Not available
Temperature	
Minimum ignition	430 °C (DIN 51794) (methyl methacrylate)

Product Name: Degaroute 485 SDS Prepared by: Technical Compliance Consultants (NZ) Ltd

temperature:	
Decomposition	No decomposition if used as directed.
Temperature	
Dynamic Viscosity	approx. 470 mPa.s (23 °C, Brookfield)
Kinematic Viscosity:	252,5 mm2/s No data available.
Dust Explosion Limit,	Not available
Lower:	

# Section 10. Stability and Reactivity

Stability of Substance	Stable under normal conditions.		
Possibility of hazardous	Polymerization with heat evolution may occur in the presence of		
reactions	radical forming substances (e.g. peroxides), reducing		
	substances, and/or heavy metal ions. Vigorous polymerization is		
	possible when heated /exposed to heat.		
Conditions to Avoid	Heat and ignition sources, aging, contamination, oxygen free atmosphere. Ultraviolet light. If the permissible storage period and/or storage temperature is exceeded, the product may polymerize with heat evolution.		
Incompatible Materials	Strong oxidizing agents. Reducing agents. Sulphur compounds		
	heavy metal ions Tertiary amines		
Hazardous Decomposition Products	None when used as directed.		

### Section 11 **Toxicological Information**

### **Acute Effects:**

Swallowed	May be harmful if swallowed. LD50: 2187 mg/kg
Dermal	Not applicable. LD50: > 5.000 mg/kg
Inhalation	Not harmful if inhaled. LD50: >5.0 mg/l May cause respiratory irritation.
Eye	Causes serious eye irritation.
Skin	Causes skin irritation and may cause an allergic skin reaction.

# **Chronic Effects:**

Carcinogenicity	Not applicable.
Reproductive	Not applicable.
Toxicity	
Germ Cell	Not applicable.
Mutagenicity	
Aspiration	Not applicable.
STOT/SE	Not applicable.
STOT/RE	Not applicable.

# **Individual component information:**

# **Acute Toxicity:**

<b>Chemical Name</b>	Oral - LD50	Dermal - LD50	Inhalation - LC50

	algae),		

## **Section 13. Disposal Considerations**

## **Disposal Method:**

Spent media that has removed toxic chemicals should be examined for specific hazards. Spilled product may be recovered for use if it has not come in contact with liquids or been exposed to significant amounts of gaseous contaminants. Dispose of according to Local Regulations.

Ensure any container holding waste product or contaminated spill media is labelled "Hazardous Waste – Flammable, Ecotoxic" and that the label also has the Flammable, Ecotoxic Pictogram, waste type identifier, and the business name, address, and phone number.

### **Contaminated Packaging:**

Contaminated packaging should ideally be emptied; it can then be recycled after having been decontaminated. Packaging that cannot be cleaned should be disposed of professionally. Uncontaminated packaging may be taken for recycling.

**Precautions or methods to avoid:** Avoid release to the environment.

### Section 14 Transport Information

### This product is classified as a Dangerous Good for transport in NZ; NZS 5433:2012

### Road, Rail, Sea and Air Transport

UN No	1866	
Class - Primary	3	
Packing Group	II	
<b>Proper Shipping Name</b>	RESIN SOLUTION (STABILIZED)	
Marine Pollutant	Yes	
Special Provisions	ecial Provisions If the product's individual container is below 5L/kg, it can be	
	transported as a non-DG as long as the product packaging is still	
	labelled as per DG requirements and the driver is given safety	
	information in accordance with Chapter 3.4 of the UNRTDG.	

### Section 15 Regulatory Information

This substance is classified hazardous according to the EPA Hazardous Substances (Classification) Notice 2017

EPA Approval Code: Surface Coatings and Colourants (Flammable) - HSR002662

HSNO Classification: 3.1B, 6.1E(Oral, Resp), 6.3A, 6.4A, 6.5B, 9.1B

HSW (HS) Regulations 2017 and EPA Notices	Trigger Quantity
Certified Handler	Not required
Location Certificate	100L (>5L), 250L (<5L), 50L open (3.1B)
Tracking Trigger Quantities	Not required
Signage Trigger Quantities	250L (3.1B)
Fire Extinguisher Quantities	250L – 2x required
Emergency Response Plan	1000L (3.1B, 9.1B)
Secondary Containment	1000L (3.1B, 9.1B)
Restriction of Use	Only use for the intended purpose.

Product Name: Degaroute 485 SDS Prepared by: Technical Compliance Consultants (NZ) Ltd
